

NutriPRO® Milk Fat Globular Membrane (MFGM)
MFGM enriched whey protein

NutriPRO® MFGM

MFGM-enriched whey
protein

MFGM (Milk Fat Globule Membrane) is the nutrient-rich membrane that surrounds the lipids in milk. MFGM contains many proteins and fats beneficial to brain health and cognitive function in adults. NutriPRO® MFGM's unique triple-layered phospholipid structure contains many bioactive components, including an array of glycerophospholipids, sphingolipids and proteins. It has been shown to reduce stress and anxiety, as well as improve cognitive function.

Features & Benefits

- Up to 70% protein
- Up to 5% natural phospholipids
- Maximum 24% fat
- High level of BCAAs
- Promotes cognitive health & performance
- Supports management of stress & anxiety

Product Applications

MFGM

- Ready to Mix
- Desserts
- Beverages
