

# NutriPRO® Lactoferrin

Health promoting protein

## NutriPRO® Lactoferrin

Health promoting protein

Lactoferrin is a naturally occurring bioactive protein fraction found in whey. With a growing body of research, it has been shown to provide immune system support, promote positive gut health, improve iron status and increase antioxidant capacity. Utilizing our expertise in protein processing, we have developed our NutriPRO™ Lactoferrin to meet growing consumer demand for health-enhanced products for all life stages.

### Features & Benefits

- Guaranteed lactoferrin purity levels of up to 95%
- High levels of bioactive components
- Rich in BCAAs
- Immune system support
- Improves iron status
- Promotes positive gut health
- Increases antioxidant capacity
- Promotes eye & skin health

### Product Applications

#### Lactoferrin

- Supplements
- Confectionary
- Ready to Mix
- Gummies

### Certifications

Elevating Ingredients. [Activating Health.](#)
