Actus Animal Health Core Competencies

Young Animal Nutrition

Founded as a milk replacer company nearly 80 years ago, Actus remains the leading milk replacer manufacturer in North America.

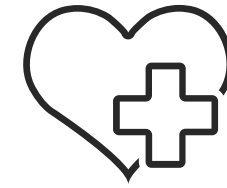

- Custom formulated milk replacer
- Vertically integrated supply chain for consistency and reliability
- Top ingredient supplier to other milk replacer brands

Livestock & Equine Products

Turnkey solutions for prilled fat supplements, electrolytes, nutritional fortifiers and more.

- Dry powder blending
- Packaging sizes range from 10oz. containers to 50 lb. bags
- One-stop solution for farm and pet brands

Health & Wellness Supplements

Actus offers a full range of ingredients that provide a variety of benefits, from enhanced nutrition to functional additives that support wellness claims.

- Work with expert formulators to meet cost and performance goals
- Regulatory supports
- Exports support available if needed

Vertically Integrated Ingredients Manufacturer

As a vertically integrated partner, we control every step from sourcing to production—ensuring **consistent quality, reliable supply, and traceability** across our full range of nutritional ingredients.

Flagship Ingredients
